!NKREDIBLE GOOD NEWS

– our customised service for newspaper printing houses

The demands being made with respect to the look and quality of daily newspapers are growing continually. At the same time, the production speeds of modern newspaper presses require the highest degree of stability and consistency from printing inks. If these demands are to be met, it is essential to have printing inks that delivers perfect print results with maximum productivity.

The GOOD NEWS service set up by the Micro Inks adapts your "tailor-made" ink range to your own particular conditions in a way that you are able to meet the growing demands being made in respect of all aspect of IFRA / ISO Standard.

Make reproduction of text crisp and add impact to every colour picture you print. So no matter who reads what, ultimately our inks make sure that your readers enjoy every bit of reading.

GOOD NEWS - for newspaper printing houses
