More than just ink ...

World class know-how, quality & reliability Whenever you need

A perfect print demands the right selection of printing inks. !NKREDIBLE inks are designed keeping in mind different printing profiles, to ensure that you use the right ink for the desired results. Created from a shared know-how between our customers and our technologists, !NKREDIBLE inks offer the best of **hubergroup** know-how acquired over 250 years of working closely with leading printers across the world. !NKREDIBLE inks, enriched with a combination of innovation and experience are truly, inks as unique as your clients' printing needs.

!NKREDIBLE

In this unique ink technology, we use a vehicle system keeping in mind the new generation of high speed printing machines, more environmentally safe raw materials and a formulation approach that ensures machine friendly ink rheology.

!NKREDIBLE inks show much superior performance in terms of setting, gloss and rub resistance. Available in premium range with standard pigmentation covering most of the printing profiles. Also as high pigmented version for that rich colour printing in enhanced colour gamut.

Test these new inks in your own press - together we might set new standards in print quality. And say goodbye to some of the most perennial printing problems.
